

Department: Design

Job role overview:

An exciting opportunity has arisen for a CAD Designers to join our lively Design Department who shape, design and develop our well-loved and iconic motorcycles.

Our Design department is made up of several project teams, who are responsible for all aspects of each exciting new model.

Successful candidates will become vital members of one of these teams. They will gain experience of many manufacturing processes and be involved with a wide variety of components from all areas of the bike.

The selection process for this role will consist of on-line testing, followed by a one-day CAD assessment at our Hinckley offices. If successful, candidates will then be invited back for interview.

Report to: Design Team Leader

Location: Hinckley, Leicestershire

Duties and Responsibilities:

- To produce high quality CAD models using PTC Creo.
- To produce engineering drawings of components under instruction from an Engineer.
- To accept input to his/her work from other members of the team.
- To be flexible to work with more than one Design team at any time.
- Develop and apply a good understanding of manufacturing constraints.
- To take direction from Stylists and incorporate Styling intent into CAD models.
- To Develop CAD skills to an excellent level, and promote best practice throughout the Design office.
- To undertake and assist with projects as required by your manager.
- Any other ad-hoc duties as required by your manager.
